

MESBAH SOUHAIL

ENGENEERING STUDENT

ENSEEIHT · Toulouse

seeking a 3-month intership in software development, algorithms, adn applied mathematics

EDUCATION

ENSEEIHT – INP Toulouse **2026-2029**
Digital Sciences

Scientific Preparatory Classes **2024-2026**
MPSI (2024/2025) then MP* (2025/2026)
CPGE MOULAY Driss (Morocco)

PROJETS

Modeling and Optimization of the Phugoid Mode (TIPE)
Optimize aircraft phugoid mode damping through a numerical model validated on scale models, identifying key aerodynamic parameters

Secure Interactive Game Development (Ada)
Secure an interactive game in development by implementing strict input validation, guaranteeing robust and crash-free execution

Spatial Detection Algorithm (MATLAB)
Develop a vectorized estimation algorithm for noisy spatial data, optimizing computation time by eliminating loops

Formal System Verification (CoqIDE)
Prove the validity of complex algorithms using formal tactics, validating the design of bug-free systems

LEADERSHIP & INVOLVEMENT

HEAD of SUP/SPE Preparation Groups **3years**
Mentoring and guidance of over 2,000 students in preparatory classes (SUP/SPE)

CONTACT

60 Allée de Bellefontaine

comptecncsouhail2006@gmail.com

0746689892

SKILLS

Python · Ada · CoqIDE · MATLAB · Langage C

LANGUAGES

Arabic : Native language
English : Fluent
French : Fluent
Japanese : Beginner

SOFT SKILLS

Problem-solving
Logical mathematical rigot
Adaptability
Team management

SPORTS Football, cycling, swimming, ping-pong
